

ITECH Bidirectional DC Power Supply

YOUR POWER
TESTING SOLUTION

IT6600C Bidirectional Programmable DC Power Supply

FEATURES

- Bidirectional, integrating power supply and e-load in one
- High power density, up to 42kW in 3U
- Independent dual-channel design in 3U unit, and channels can be connected in series or parallel
- Master-slave current equalizing, output max. 10MW in parallel, no performance lost
- Dynamic response $\leq 200\mu s$
- Rise time $\leq 1ms$
- High precision $\leq 0.03\% + 30mA$
- Built-in communication interface: USB(USB-TMC/USB-VCP), LAN(Rawssocket/Modbus-TCP /Profinet/VNC/VXI-11/Web/Telnet), CAN 2.0B (CANopen/CAN2.0), digital IO
- Optional communication interface: GPIB/EtherCAT/Analog&RS232
- SCPI & ModBus protocol
- LabVIEW driver & Python Scripts

For more models, pls. contact ITECH.

IT6000B Regenerative

Power System

IT6000C Bidirectional

Programmable DC Power Supply

FEATURES

- Adopts SiC-base technology, integrates source and sink function in one unit
- High power density up to 18kW in compact 3U rack space, expandable up to 2MW by paralleling
- Output voltage up to 2250V
- Output current up to 8000A
- Equipped with SAS1000 to support solar array I-V curves simulation
- High regenerative efficiency up to 95%
- Bi-directional power transfer, seamless switch between sourcing and sinking
- Partial pre-compliant with LV123, LV148, DIN40839, ISO-16750-2, SAEJ1113-11, LV124 and ISO21848 automotive testing standards
- Could be used as battery simulator (with optional BSS2000 Software)

For more models, pls. contact ITECH.

IT-M3900B Regenerative Power System

FEATURES

- 2 in 1 unit - a bidirectional power supply and a regenerative load
- One button switch between source and load on front panel
- Compact design, 1U@6kW, 2U@12kW
- Battery charge and discharge test
- Battery simulation

*1 Not available for 10V models

- Partial pre-compliant with LV123, LV148, DIN40839, ISO-16750-2, SAEJ1113-11, LV124 and ISO21848 automotive testing standards*1
- Simulation of dynamic driving conditions, up to 10 million points
- 8 operation modes under Source mode :
CC/CV/CW/CR/CC+CV/CV+CR/CR+CC/CC+CV+CW+CR

IT-M3900C Bidirectional Programmable DC Power Supply

FEATURES

- Compact design, power up to 6kW in 1U space, power up to 12kW in 2U space
- Wide range of output design, one unit can be used as multiple power supplies
- Bidirectional energy flow between the DUT and grid, seamless switching across quadrants
With simple master/slave parallel connection, expand power while maintaining performance*1

*1 If 1U models>16, 2U models>8, pls. contact ITECH.Parallel connection is not recommended under PV simulation function

- Battery charging and discharging test
- Battery simulation, define the battery model
- Support photovoltaic I-V curves simulation function*2
- Support CC/CV/ CW/CR in sink mode
- Support CC/CV/CW in Source mode, and can simulate DC output internal resistance

*2 Only available for 85V models

IT-M3600 Regenerative Power System

FEATURES

- 1U half rack, high power density
- One button switch between source and load
- Bidirectional energy flow between DUT and grid *1
- Highly efficient power regeneration
- Battery test
- Battery simulation
- PV inverter I-V curve simulation

*1 only available for single unit

*2 Multiple operation modes is only available under load function

- 8 operating modes: CC/CV/CP/CR/CV+CC/CC+CR/CV+CR/CV+CC+CP+CR *2
- Independent control of multi-channels, implement synchronization or proportional tracking
- High-speed measurement, keep 10 times / s update rate even connecting 16 stand-alone units
- CC/CV priority

IT-M3400 Bidirectional DC Power Supply

FEATURES

- 1U Half-rack, high power density
- Bidirectional energy flow
- High efficient power regeneration
- Battery test
- Battery simulation
- CC/CV priority

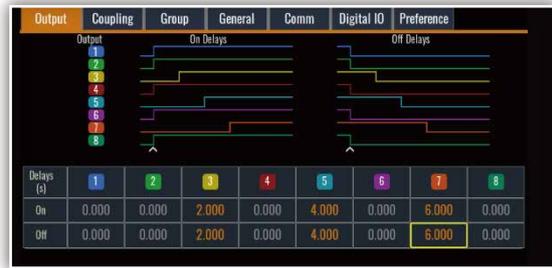

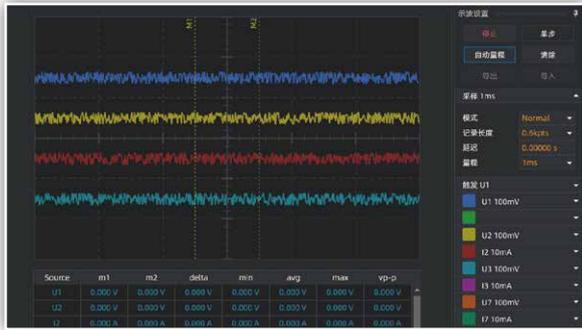

- Independent control of multi-channels with functions of synchronization and proportional tracking
- High speed measurement, 10 times/S updating rate
- Adjustable output impedance
- Programmable voltage and current rise and fall time

IT2700 Multi-channel Modular Power System

8 channels

synchronization

Group	Module	Status	Voltage	Current	Power
1	模块设置_1.CH1	Fixed	10.000V	0.005A	0.500W
2	模块设置_1.CH2	Fixed	20.000V	0.007A	0.914W
3	模块设置_1.CH3	Fixed	25.000V	0.001A	0.500W
4	模块设置_1.CH4	Fixed	10.000V	0.007A	0.700W
5	模块设置_2.CH1	Fixed	10.000V	0.002A	0.200W
6	模块设置_2.CH2	Fixed	20.000V	0.001A	0.200W
7	模块设置_2.CH3	Fixed	25.000V	0.000A	0.500W

FEATURES

- ATE systems for R&D, design verification and manufacturing
- Compact size: 1U single unit outputs up to 8 channels
- Flexible modular system: mix and match various modules
- 2 mainframes (1U), 3 module types (DC power supply, bidirectional power supply, regenerative load)
- Free PC software, display 8-channel output
- Support Web control, use common browser to realize all functions
- The electrically isolated source load module supports 8 modules in master-slave parallel connection up to 2kW*1
- Load function: support CC, CV, CP, CR, CC+CV, CR+CV, CP+CV, CC+CR, AUTO, BSIM (battery simulation)
- Supports automatic switching for CV, CC, and CP, with selectable CC & CV priority, and internal resistance setting

*1 One chassis supports only one set of master-slave parallel connections

Voltage	Current	Power	DC power supply	Bidirectional DC power supply	Regenerative DC load

IT2702	1U mainframe without front panel (8 slots)				
IT2703	1U mainframe with touch screen (6 slots)				
IT2704	1U mainframe without front panel (8 slots, only available for load modules)				

*IT27xxx should be equipped with IT2702 or IT2704

*IT27xxxR should be equipped with IT2703

Modular ,scalable and powerful , Maximum flexibility

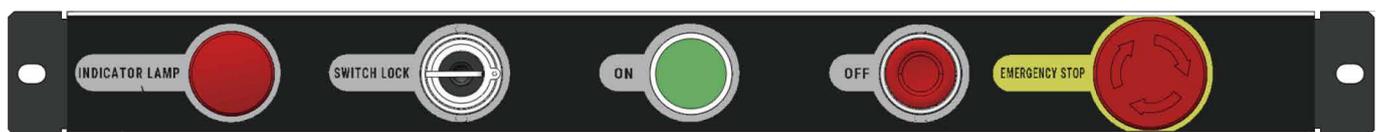

Up to 420kW

Max.240 channels output in a 37U 19"Rack

Emergency stop protection module

The ITECH system cabinet offers an optional emergency stop module, allowing users to operate the system through control buttons for emergency stop, power-on, and power-off. In the event of a system abnormally, users can quickly disconnect the AC contactor at the AC input by pressing the emergency stop button, immediately halting the power output. After troubleshooting and confirming the system's safety, users can restart the system using the control buttons to resume normal operation. This emergency stop device provides a quick solution for handling emergencies, ensuring the safety and reliability of the system.

Anti-reverse and sparking protection module

ITECH products offer optional anti-reverse connection and anti-sparking modules for charging and discharging applications of batteries. These modules are installed between the DC output of the cabinet and the device under test, providing safe and reliable physical electrical isolation. This design effectively prevents sparking during wiring and avoids equipment damage caused by reverse polarity connections, ensuring the safety and reliability of the charging and discharging test process.

ITE165A-250	Anti-reverse protection unit 750V/250A
ITE165A-400	Anti-reverse protection unit 950V/400A
ITE165A-750	Anti-reverse protection unit 1500V/750A
ITE165A-1000	Anti-reverse protection unit 1500V/1000A

Meet ITECH ELECTRONIC CO., LTD.

With over 20 years of expertise in manufacturing, ITECH Electronics has established itself as a trusted global symbol of innovation in power electronics testing instruments and solutions. Our extensive catalog boasts more than 60 product series and 1,000 models, including AC/DC programmable power supplies, AC/DC programmable electronic loads, 2-in-1 regenerative power systems, grid simulators, bidirectional DC power supplies, source meters, battery simulators, PV simulators, power meters, battery IR testers, ATE systems, and more.

From the very beginning, ITECH has been committed to innovation, consistently setting industry standards with a focus on high performance, reliability, and precision. Our broad product specifications support a wide range of sectors, including electric vehicles and automotive electronics, solar and energy storage, industrial electronics, commercial aviation, semiconductors, healthcare, academic research, etc.

Aimed to empower the electrified and sustainable future, ITECH continues to contribute with cutting-edge power test solutions and products.

Product Portfolio

- AC/DC programmable power supplies
- AC/DC programmable electronic loads
- Bidirectional DC power supplies
- 2-in-1 regenerative power systems
- Regenerative grid simulators
- High precision source meters
- Battery simulators
- PV simulators
- Power analyzers
- Battery IR testers
- ATE system

Application Fields

- EV and automotive electronics
- Renewable energy
- Battery and energy storage
- Power semiconductors
- Industrial electronics
- Commercial aviation
- Medical electronics
- Academy and research
